

***** Aspen X2 Family Portal Login – Please Save! *****

***Barrington Public Schools
September, 2010***

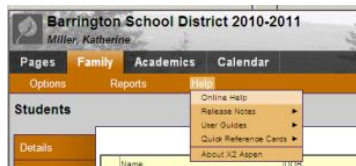

Over the summer, we completed the monumental task of transitioning our student information system to Aspen X2. Aspen is a secure, web-based school information system produced by the X2 Development Corporation. Aspen protects your student's information with the same advanced technology your bank uses to protect your financial accounts. Aspen users will only have access to needed information.

This system manages all facets of student data – from attendance to conduct, grades to schedules, health and enrollment. Teachers were trained in how to use the new system in the days prior to the start of school and we are ready to make this tool available to parents.

The label below contains your family account information. Students will separately receive individual accounts.

The link to X2 can be found on each of the district websites or accessed directly at <https://www.x2dev.net/barrington> We will also be building a collection of Frequently Asked Questions (FAQs) on our website.

Once logged in, you can access a complete user guide:

You will be asked to change your password on first login, but your password can be changed at any time by selecting **Set Preferences** in the upper right corner and clicking on **Security**. Please make sure to setup security questions so that you can easily reset a lost or forgotten password.

Please exercise patience as teachers work in this new system toward our district goal of assignment posting within two weeks. If you have questions, please email us at x2help@bpsmail.org We look forward to working with all of you to further bridge home/school communication. Have a great school year!
